About us

UP Studio Design LLP is a one-stop design & build solutions firm, established in 2016, delivering integrated solutions across workplace design, interior execution and project delivery.

A multidisciplinary team specializing in corporate & IT fit-outs, interior design and project audits, creating high-performance workplaces through integrated design and execution.

Our approach brings design thinking, technical coordination and project execution together to create spaces that are aesthetically considered, functionally efficient and aligned with client requirements.

We are committed to delivering practical and sustainable design solutions with equal attention to aesthetics, functionality, execution and the experience of the people who use the space.
